sepher rezial hemelach is the long-awaited first English translation of this famous magical text, a translation from the ancient Hebrew in the rare and complete 1701 Amsterdam edition. According to Hebrew legend, the Sepher Rezial was presented to Adam in the Garden of Eden, given by the hand of God and delivered by the angel Rezial. The myth thus suggests that this is the first book ever written and of direct divine provenance, a diverse compendium of ancient Hebrew magical lore. This book was quite possibly the original source for later traditional literature on angelic hierarchy, astrology, qabalah, and gematria. Moses Gaster mentions this in his introduction to the *Sword of Moses* (1896), suggesting that the Sepher Rezial could be a primary source for many magic and qabalistic books of the Middle Ages. Sepher Rezial Hemelach is a compilation

of five books the book of the vestment the book of the great rezial the holy names the book of the mysteries and the book of the signs of the zodiac it includes extensive explanatory text on the holy names of god the divisions of heaven and hell the names and hierarchy of the angels and spirits as well as symbolic interpretations of both the book of genesis and sepher yetzirah it also includes material on astronomy astrology gematria and various magical talismans most notably those used for protection during childbirth in his introduction steve savedow details the history bibliographical citations and lineage of this famous work he lists the old and rare manuscripts still in existence and provides a bibliography of other reference works for study of the western esoteric tradition

this book offers a perspective decidedly different from that of the bush administration and its neoconservative supporters since the united nations embraced the right of national self determination in 1945 the historical odds have been unfavorable to great powers that impose military occupations on smaller nations this point is bolstered by the evidence from history and is particularly pertinent to the american occupation of iraq where a robust insurgency has delayed projected successes by the administration and wartime planners drawing on historical antecedents to the occupation of iraq gannon examines events such as the british struggles in palestine french enterprises in algeria the soviet debacle in afghanistan and other instances in which occupying powers to demonstrate the struggles and failures of occupying powers in the face of determined insurgencies since the united nations adopted the principle of national self determination in 1945 great powers like the united states that occupy smaller nations like iraq lose more often than not when confronted with credible insurgencies the evidence is taken from recent history the zionist victory over britain in palestine

and the defeats of france in algeria america in vietnam the soviet union in afghanistan and israel in lebanon on the surface these outcomes seem perverse powerful modern armies brought down by rag tag rebels the explanation comes from the types of warfare fought great powers are equipped to fight other great powers in great battles over large territory rebels fight shadow wars neutralizing the fire power and mobility of the occupying army insurgencies continue for years allowing political considerations to come into play including propaganda international pressure and the stream of dead and wounded returning from the war zone the home front turns against the war and new policymakers conclude that the nation s interests are best served by getting out history is not an exact science so the judgment here is expressed in probability not certainty witness the british defeat of insurgencies in malaya and kenya before giving up these colonies and the four decades old israeli occupation and partial colonization of the west bank
